Web Developer

Highly skilled Web Developer with a strong background in WordPress and Elementor, complemented by a solid foundation in programming and graphic design. With over 5 of experience, I bring a proven track record of delivering visually stunning, user-friendly websites that seamlessly blend design and functionality. I excel at leveraging my programming expertise to create custom solutions and optimize site performance, while my design sensibility adds a unique aesthetic touch. I also instigated process innovations and improvements like improvement of QA Process resulting to 60% reduction in post-launch bug reports, and created massive test result checking tool in Excel resulting in 90% decrease in test result checking time spend. Committed to delivering results that exceed client expectations and drive online success.

SKILLS

Web Development, Web Design, Wordpress, Elementor, HTML, CSS, Javascript, Browser Testing, Mobile Responsive Design, WCAG - Web Accessibility, Clickfunnels, Automation Tools

WORK EXPERIENCE

WCRADA | WTMarketingPros • 06/2022 - 09/2023

Web Developer

- Designed and developed 12 responsive websites using WordPress and Elementor, creating visually appealing and user-friendly interfaces for clients.
