

JEROME ANGELO MOSCA

Web Developer / Mainframe Programmer

PROFESSIONAL SUMMARY

Highly skilled Web Developer with a strong background in WordPress and Elementor, complemented by a solid foundation in programming and graphic design. With over 10 years of Programmer and Over 5 years of Web Developer experience, I bring a proven track record of delivering visually stunning, user-friendly websites that seamlessly blend design and functionality. I excel at leveraging my programming expertise to create custom solutions and optimize site performance, while my design sensibility adds a unique aesthetic touch. I also instigated process innovations and improvements like improvement of QA Process resulting to 60% reduction in post-launch bug reports, and created massive test result checking tool in Excel resulting in 90% decrease in test result checking time spend. Committed to delivering results that exceed client expectations and drive online success.
